

Senior Superintendent – MEP / Mission Critical

Hyperscale Data Center / Mission Critical / Heavy Civil

15+ YEARS OF EXPERIENCE | 12+ YEARS SUPERVISORY | \$10B+ LARGEST PROJECT | 200+ PEAK MANPOWER

Table with 2 columns: Field (Location, Position, Years of Experience, Relevant Companies, Certifications, Salary Requirement, Relocation, Start Date) and Value (El Paso, TX, Senior Superintendent, 15+, J.E. Dunn, OSHA 30, \$160k+ per year, Not immediate, ASAP)

CANDIDATE OVERVIEW

This candidate is a Senior Superintendent with 15+ years of progressive construction leadership experience across hyperscale data centers, mission-critical construction, MEP infrastructure, heavy civil, transportation, and underground utility projects. His leadership experience includes some of the largest and most complex construction programs in the country. He brings extensive experience coordinating civil, mechanical, electrical, telecommunications, medium-voltage, concrete, utility, and infrastructure scopes while managing complex schedules, inspections, RFIs, shop drawings, trade partners, and large craft workforces.

KEY STRENGTHS

- 15+ years of progressive Superintendent and construction leadership experience
- Recent Superintendent III experience on a \$10B+ Meta hyperscale data center campus in El Paso
- Extensive hyperscale experience supporting both Meta and AWS data center construction
- Strong MEP, civil, telecommunications, medium-voltage, underground utility, and infrastructure background
- Mechanical Engineering background with direct MEP commissioning experience
- Experience coordinating peak craft manpower of 2,000+ across concurrent work fronts
- Major-project experience including \$10B+ data center and \$3.9B transportation programs
- Bilingual English/Spanish with extensive trade partner, owner, inspector, and field-team coordination experience
