CANDIDATE OVERVIEW

Environmental Health & Safety professional with more than 40 years of leadership experience supporting construction, industrial, aerospace, environmental remediation, municipal utilities, and government operations. Currently serving as Safety Officer for the City of Las Cruces, he develops and manages safety programs, conducts audits and inspections, investigates incidents, delivers workforce training, and partners with executive leadership to ensure regulatory compliance and continuous improvement across multiple operational departments.

Previously, Case served as Safety Manager with Jacobs Engineering supporting BP's Deepwater Horizon response efforts, where he developed site-specific safety plans, managed OSHA compliance, reviewed construction drawings, vetted contractors, conducted field inspections, and trained more than 4,000 personnel across multiple states. His background also includes serving as Director of Safety & Mission Assurance at NASA Stennis Space Center and Safety & Health Program Manager at NASA White Sands Test Facility. A retired U.S. Air Force Master Sergeant, Case brings extensive experience in safety program development, risk management, workforce engagement, compliance oversight, incident investigations, and safety culture leadership.
