CERTIFICATIONS	OSHA 30, OSHA 510
SALARY REQUIREMENT	\$105k+
RELOCATION	yes
START DATE	2 weeks from offer

CANDIDATE OVERVIEW

Safety Manager with 6+ years supporting large-scale mission-critical, semiconductor, and commercial construction projects for contractors including Hoffman Construction, Holder Construction, and Loenbro Mission Critical. He has managed safety operations on high-profile projects for clients such as Intel, Apple, Microsoft, and QTS, overseeing thousands of tradespeople across complex MEP scopes. With a background as a mechanical insulator, J. brings strong field credibility, a practical approach to safety, and the ability to build relationships with both craft workers and leadership. He is bilingual in English and Spanish and holds his CHST certification along with OSHA 510, OSHA 30, NFPA 70E, and Incident Investigation Specialist credentials. Extensive mission-critical and high-tech construction safety experience supporting large-scale semiconductor, data center, and advanced manufacturing projects. Proven leadership managing safety teams and overseeing site safety operations for projects with thousands of craft workers across multiple trades. Strong field-based safety approach backed by hands-on mechanical trade experience, allowing him to effectively communicate with crews and drive safe work practices. Experienced with high-risk construction activities including rigging, cranes, fall protection, LOTO, confined space, scaffolding, and MEP installations. Bilingual English/Spanish communicator with strong experience delivering training, conducting audits, managing investigations, and partnering with clients and contractors.
