YEARS EXPERIENCE

9

CONCURRENT PROJECTS

\$10M+

PORTFOLIO OVERSIGHT

40+

FIELD PERSONNEL

TARGET ROLE Senior Project Manager / Construction Manager — Commercial Electrical

MARKET Raleigh / Triangle, NC — strong local preference, open to limited travel

BACKGROUND Field foreman to operations / branch leadership across three regional electrical contractors

SECTORS Healthcare, industrial (oil & water infrastructure), office, mixed-use, multifamily

CREDENTIALS NC Journeyman / Master Electrician, OSHA 30, NFPA 70E, CPR / First Aid

COMPENSATION ~\$155K base target, flexible to ~\$135K for the right fit

AVAILABILITY Immediate

CANDIDATE OVERVIEW

Twenty years of progressive leadership in commercial electrical construction, advancing from journeyman field foreman to branch operations leadership. Most recently partnered in standing up a commercial division for a regional electrical contractor, taking it cash-flow positive within eight months and closing 14 of 15 awarded projects at or above forecasted gross profit.

He has since stepped away from that ownership-track role and is targeting a senior execution-focused position that applies his leadership and operational skillset without the demands of running a business unit. He has managed up to nine concurrent projects, overseeing field workforces of 30 to 40+ personnel, with total portfolio oversight exceeding \$10M and individual electrical packages up to \$4M.

Motivated by stability and improved work-life balance following his ownership exit rather than compensation alone. Available to start immediately.

KEY STRENGTHS

- Built a commercial electrical branch from startup to cash-flow positive in under a year
- Two decades of progression from field foreman to operations and branch leadership
- Project portfolios across healthcare, industrial, and commercial sectors
- Established industry network for rapid staffing and crew mobilization
- Seeking senior execution-level leadership without ownership burden

TECHNICAL SKILLS

- Accubid estimating, Trimble, BIM360, Bluebeam, Procore
- Microsoft 365 / advanced Excel
- Up to 9 concurrent projects with 30-40+ field personnel
- Largest electrical packages ~\$4M; total oversight \$10M+
- Licensed Journeyman / Master Electrician (NC)
- OSHA 30, NFPA 70E, CPR / First Aid certified
