CAREER INTEREST	Senior superintendent roles; also open to Owner's Rep, commissioning, and energy marshal opportunities
AVAILABILITY	Exploring now — selective about the next move

CANDIDATE OVERVIEW

This candidate is a Texas Master and Journeyman Electrician with more than 25 years in commercial, industrial, and service electrical construction, progressing from electrician and foreman through superintendent and project management. He currently serves as Senior Electrical Superintendent for a Dallas–Fort Worth electrical contractor, where he manages vendor relationships and procurement, BIM coordination, field execution, safety, and quality on large commercial electrical projects.

His background spans institutional, aviation, and commercial work. He has led electrical construction on a community college campus expansion, managing schedules, manpower, subcontractors, inspections, and code compliance, and has run airport hangar development, owning manpower, materials, budgets, scheduling, and work orders. Earlier field leadership included a university health and research facility and a major DFW airport terminal.

He works fluently across current construction technology, including Procore, Autodesk Build, Bluebeam, PlanGrid, Trimble, Kojo, CxAlloy TQ, and BIM coordination, and holds NEC 2023 knowledge. Bilingual in English and Spanish, he manages field teams, owners, general contractors, architects, and engineers.

He is exploring his next move selectively. He is open to senior superintendent roles and is also interested in Owner's Representative, commissioning, and energy marshal opportunities. His priority is staying local to the Dallas–Fort Worth market with limited travel.

KEY STRENGTHS

- Texas Master and Journeyman Electrician with 25+ years in commercial and industrial electrical
- Senior superintendent leadership across institutional, aviation, and commercial projects
- Full-scope field execution: schedules, manpower, subcontractors, budgets, and QA/QC
- Strong technology adoption across Procore, Autodesk Build, Bluebeam, and BIM coordination
- Local Dallas–Fort Worth market knowledge with a limited-travel preference
- Bilingual in English and Spanish
- Open to Owner's Rep, commissioning, and energy marshal paths in addition to superintendent roles

SKILLS CHECK LIST
