LOCATION	Tucson, AZ
POSITION	Commercial HVAC Service Technician / Field Leader
YEARS OF EXPERIENCE	18+ Years
CERTIFICATIONS	EPA 608 Universal, OSHA 30,
SALARY REQUIREMENT	\$45/hour
RELOCATION	No
START DATE	2 weeks from offer

CANDIDATE OVERVIEW

Local Tucson HVAC professional with approximately 18 years of experience across commercial HVAC service, installation, construction, maintenance, sales, and operations. Has progressed from hands-on field installation and service into Foreman and Operations Manager-level responsibilities, with experience leading crews, ordering materials, reading plans, coordinating field work, and supporting multi-million-dollar commercial projects. Most recently has been working in commercial HVAC service and sales.

Hands-on equipment experience includes packaged units, water-source heat pumps, boilers, walk-in coolers, ductwork, and general commercial HVAC systems. Also has exposure to chiller maintenance and support, although the background is stronger in overall commercial HVAC service and operations than heavy chiller diagnosis and repair. Brings both technical field experience and leadership experience, including managing technicians, scheduling work, coordinating projects, and working directly with customers.

EPA 608 Universal and OSHA 30 certified with a former California C-20 HVAC Contractor's License. Local to the Tucson market and targeting approximately \$45/hour for the next opportunity.

KEY STRENGTHS

- Approximately 18 years of HVAC experience across commercial service, installation, construction, maintenance, and operations
- 10+ years of Foreman, field leadership, and operations management experience
- Strong commercial HVAC background with experience progressing from hands-on technician/installer into leadership
- Experience with packaged units, water-source heat pumps, boilers, walk-in coolers, ductwork, and general commercial HVAC equipment
- Crew leadership experience including manpower, scheduling, materials, plan reading, and field coordination
- Experience supporting and managing multi-million-dollar commercial HVAC projects
- EPA 608 Universal and OSHA 30 certified with previous California C-20 HVAC Contractor licensing
- Bilingual in English and Spanish with both technical and customer-facing experience
