AVAILABILITY	Within a few weeks; standard two-week notice

CANDIDATE OVERVIEW

This candidate is a project manager with 5+ years managing commercial construction, low-voltage, and telecommunications projects. With a low-voltage and telecom contractor since late 2022, he manages roughly \$3M in annual project volume, owning scheduling, budgeting, procurement, billing, cost control, contract review, documentation, and closeout while providing on-site leadership and maintaining client relationships.

His fire alarm and low-voltage background comes from six years as a systems technician, where he handled installation, troubleshooting, crew supervision, and contractor coordination across CCTV, fire alarm, telecommunications, and structured cabling systems. He holds a Silent Knight fire alarm certification and is open to pursuing NICET with employer support.

Earlier in his career he managed residential and commercial concrete projects end to end for a regional contractor. Across his background he covers estimating and proposals, change orders, contract administration, vendor and subcontractor management, blueprint and schematic reading, and risk assessment. He is based in the Charleston, SC market.

KEY STRENGTHS

- 5+ years managing commercial, low-voltage, and telecommunications projects
- Roughly \$3M in annual project volume, planning through closeout
- Silent Knight fire alarm certification with resume-backed fire and low-voltage experience
- Six years hands-on across CCTV, fire alarm, telecom, and structured cabling
- Full-cycle PM: estimating, procurement, billing, cost control, and contract review
- Open to pursuing NICET with employer support
- Based in the Charleston, SC market
