SALARY REQUIREMENT	Comfortable within the posted ~\$93K–\$103K base range plus benefits
RELOCATION	El Paso local; able to commit to a 2+ year on-site assignment in the area
AVAILABILITY	Available to start immediately

CANDIDATE OVERVIEW

This candidate is a commercial construction superintendent with more than 10 years leading ground-up field operations across retail, healthcare, and municipal projects in El Paso and the Southwest. He runs daily site operations for his area \u2014 supervising craft and subcontractor teams, setting the pace, enforcing safety, and coordinating with trade partners and inspectors from start to finish. He is an El Paso local, available to start immediately, and able to commit to a 2+ year on-site assignment.

His superintendent history includes ground-up big-box retail builds, multiple medical office and clinic projects, a commercial collision-repair facility, and city infrastructure work. He owns scheduling, quality control, blueprint reading, daily reporting, budget and cost control, and code and inspection compliance, and has coordinated crews and subcontractor teams of ten or more across concrete, electrical, plumbing, mechanical, framing, and paving.

He has on-site exposure to a major El Paso data center program and holds OSHA 30 and OSHA 10 along with CPR, a valid driver's license, and equipment certifications (forklift, skid steer, backhoe). He is bilingual in English and Spanish and holds an Associate degree.

KEY STRENGTHS

- 10+ years leading ground-up commercial construction as superintendent
- Owns daily field operations: safety, schedule, quality, and crew leadership for his area
- Multi-trade subcontractor coordination: concrete, electrical, plumbing, mechanical, framing, paving
- Ground-up big-box retail, medical/clinic, and city infrastructure project history
- On-site exposure to a major El Paso data center program
- OSHA 30 and OSHA 10; CPR; valid driver's license; forklift, skid steer, backhoe
- El Paso local; available immediately; able to commit to a 2+ year on-site assignment

SKILLS CHECK LIST

- Area-level daily field operations and crew supervision
- Four-week look-ahead scheduling and milestone tracking
- Safety leadership: daily safety meetings, site-specific safety plans, OSHA 30/10
- Quality control, blueprint reading, and code/inspection compliance
- Multi-trade subcontractor and trade-partner coordination
- Cost/production records, material handling, and punch list through turnover
