CANDIDATE OVERVIEW

Senior-level quality professional with 25+ years of experience across manufacturing quality, supplier quality, advanced quality planning, customer quality, purchasing, and quality management systems. Background includes automotive, aerospace/space, electronics, and manufacturing environments with extensive experience in ISO 9001, IATF 16949, ISO 14001, AS9100, APQP, PPAP, root cause analysis, Lean Six Sigma, supplier development, audits, and continuous improvement.

Most recently worked as a Quality Engineer within the space industry, handling production quality sign-offs, MRB meetings, root cause/corrective action activities, inspection plans, process control plans, and Lean Six Sigma initiatives. Prior experience includes Senior Supplier Quality Engineering within automotive manufacturing, managing supplier selection, APQP activities, pre-production runs, PPAP approvals, supplier performance, and on-site supplier quality improvements.

Also brings significant management experience, including eight years as a Quality Manager overseeing quality, production, vendor management, purchasing, contract negotiations, ISO 9001 systems, and engineering/NPI support. Earlier leadership experience includes managing large manufacturing and quality teams, including operations with more than 90 employees and quality departments with 20+ inspectors. Targeting \$120K+ annually, open to some travel but not extensive travel, not open to relocation, and available approximately three weeks from offer.
