CANDIDATE OVERVIEW

This candidate brings 38+ years of construction experience primarily within LNG, oil & gas, petrochemical, refinery, and major industrial environments. The background is heavily concentrated in piping, welding, mechanical construction, field supervision, startup/commissioning support, constructability, subcontractor coordination, ITPs, drawings, cost, and progress management. Most recently, this candidate has been working as a Construction Manager supporting a major LNG project and previously served as a Pipe Superintendent on another large LNG development. The career also includes major assignments at LNG, petrochemical, and industrial projects throughout the U.S. and internationally.

KEY STRENGTHS

- 38+ years of industrial construction experience
- Extensive LNG, refinery, petrochemical, and oil & gas background
- Construction Manager and Piping Superintendent-level leadership
- Strong piping, welding, mechanical, and constructability knowledge
- Experienced managing subcontractors and field craft
- Strong understanding of drawings, ITPs, progress, and cost control
- Extensive domestic and international project experience
- Long-term experience leading major industrial field operations
